University of California, Riverside, Riverside, CA
- 2006 – 2012 Research Assistant at the Asian American Children & Families Project Lab,
Developmental Psychology, University of California, Riverside
- Research Focus: Effects of language brokering and feelings about language brokering between children and parent, and its effect on children's outcome, and longitudinal investigation on the impact of parental involvement, plans for college, and high school GPA.
- 2004 – 2006 Research Assistant, Dr. Chun's Values, Identity, and Psychological Status (VIP) research and discussion team
California State University, Long Beach, Long Beach, CA
- Mission Statement: The main objective of the VIP study is to examine the relationships among several cultural variables such as acculturation, ethnic identity, and individualism and collectivism. Acculturation and ethnic identity have been often used as proxy variables of cultural values, and this study aims to test that assumption. Another objective of the study is to find out whether these cultural variables are

associated with psychological distress in a systematic way. Members of VIP are a diverse group of graduate and undergraduate students.

2003 Assistant Researcher, researching on Vietnamese college students' attitude towards counseling and seeking professional psychological help
University of California, Irvine, Irvine, CA
