

## Minor in Chemistry

CHEMISTRY - 26 units					
REQUIRED		Prerequisite	Core	Offered	Completed
SCI 220	General Chemistry I (5)		R3, PS3	Every F	
SCI 221	General Chemistry II (5)	SCI 220	R3, PS3	Every SP	
SCI 315	Organic Chemistry I (5)	SCI 221	A3, R3, PS3	Every F	
SCI 316	Organic Chemistry II (5)	SCI 315	A3, R2, R3, PS3	Every SP	
SCI 320	Biochemistry (4)	SCI 316	PS3	Every F	
SCI 321	Biochemistry Lab (2)	SCI 320	PS3	Every SP	

Any area of emphasis defined in the Multidisciplinary Studies BA program may be added to another Bachelor's degree as a minor. The minor may not be the same discipline as the degree. A minor added to the Multidisciplinary Studies BA requires completion of a third emphasis, since the Multidisciplinary Studies BA itself requires two emphases. Courses may not be applied to more than one area of emphasis.

Limitations are in place when more than 1 course is required/taken in both the major and minor. Examples are:

- Accounting BS and Business minor
- Biology BA/BS and Biology or Chemistry minor
- Business BA and Business minor
- Criminal Justice BA and Criminal Justice minor
- Digital Communication Media BS and Digital Communication minor
- Management BS and Business minor
- Psychology BA and Psychology minor
