SCI 333	Exercise Physiology (4)	SCI 233 or 241	PS3	Every SP	
SCI 334	Ergogenic Aids in Sports (4)		PS3	Every SP	

Any area of emphasis defined in the Multidisciplinary Studies BA program may be added to another Bachelor's degree as a minor. The minor may not be the same discipline as the degree. A minor added to the Multidisciplinary Studies BA requires completion of a third emphasis, since the Multidisciplinary Studies BA itself requires two emphases. Courses may not be applied to more than one area of emphasis.

Limitations are in place when more than 1 course is required/taken in both the major and minor. Examples are:

Accounting BS and Business minor
 Biology BA/BS and Biology or Chemistry minor
 Business BA and Business minor
 Criminal Justice BA and Criminal Justice minor
 Digital Communication Media BS and Digital Communication minor
 Management BS and Business minor
 Psychology BA and Psychology minor
