April 28, 2022

Dear Marymount California University Student,

Thank you for considering joining the Hope International University family! Since 1928, Hope International University has been dedicated to providing students with world-class Christian in-person undergraduate and graduate education in Southern California and nationally through our online undergraduate and graduate programs. Our mission is simply to empower students through Christian higher education to serve the Church and impact the world for Christ. While expressed in different words, I believe you’ll find the mission and vision of Marymount California University to be very compatible with ours. Among the many reasons our students decide to enroll and continue their education with us is our strong sense of community and alignment with personal values. I trust this is what you experienced at Marymount California University and we will do everything we can to create a similar experience for you.

If you would like to know more about being a part of the Hope International University family, please refer to the attached Student Transfer Procedures. We would welcome very much the opportunity to hear your story and how your story can continue with us.

Regardless of where you decide to continue your education, please know that I’m praying for you and the Marymount California University family.

In Christ,

Dr. Paul Alexander
President
Hope International University/Marymount California University
Student Transfer Procedures

The following information is provided as an overview of the opportunity for students who are currently enrolled at Marymount California University (MCU) to transfer to Hope International University (HIU). It is not intended to address all questions that might arise, but it is rather provided as a brief explanation of the process.

1. MCU students who desire to transfer to HIU must complete an admissions application. The application fee will be waived. Students must meet the admission requirements of HIU.

2. HIU will accept for academic credit up to 90 units earned by MCU students and make every effort to construct the most advantageous degree plan possible for each individual student’s timely completion of a degree from HIU. We recognize the quality instruction that MCU has provided and are taking this action in response to the current situation. This will be offered to students who complete the transfer application process prior to August 1, 2022, for the Fall 2022 semester and December 1, 2022, for the Spring 2023 semester.

3. Students who desire to apply for Federal Student Loans must complete the necessary financial aid application and submit the appropriate documentation to expedite the process in time for the fall semester. Use HIU’s School Code: 001252

4. HIU will match MCU net tuition after all scholarships, grants, and state and federal aid. Any additional costs and fees incurred by the student (e.g., meal plans, housing, student services fees, etc.) will be assessed at the HIU prevailing published rate (which in most cases is less than MCU published rates).

5. MCU students are invited to schedule a campus visit at their convenience. HIU will offer weekly online webinars for MCU students for questions and answers every Tuesday.

6. Additional information about HIU, including program descriptions and catalog, are available for review on the University website at www.HIU.edu.
