Admission
LINFIELD.EDU

Linfield University welcomes students from Marymount College to complete your complete your degree with Linfield. We are happy to offer the **Marymount Transfer Award** to all admissible Marymount transfer students in the amount of \$25,000. Additional aid may also be available for students filing the FAFSA

In addition to being an affordable option, Linfield's educational value is unsurpassed. For students interested in business, Linfield's School of Business offers seven majors – Accounting, Finance, International Business, Management, Marketing, Sport Management and Wine Studies. Additionally, we offer several masters level programs in the School of Business. The School of Business cultivates leaders by facilitating critical thinking, encouraging networking experiences and engaging students through internships regionally, nationally and internationally. Many students graduate Linfield with a job offer already in hand.

Our STEM majors and minors and our social sciences programs are housed in our College of Arts and Sciences and offer 42 different majors/concentrations, including Biology, Interdisciplinary Studies, Journalism and Media Studies and Psychology. While we don't have Criminal Justice, our Sociology major offers courses in deviant behavior and students will have a senior capstone internship.

Kristie Rickerd, associate director of admission, is our transfer student admission contact. Marymount students are welcome to contact directly at krickerd@linfield.edu or 503-883-2648 or set up a [virtual appointment](#) if they have questions about transferring to Linfield.

We encourage any student exploring Linfield as an option to contact us with any questions. The Linfield community will be here to assist in any way we can during this difficult time.

All my best,
Lisa

Lisa Knodle-Bragiel (she/her/hers)
