Woodbury University offers a unique experience that is personal, communal and practice-based. Every major requires an internship, giving students work experience and a competitive advantage after graduation. Each year, Woodbury welcomes a number of transfer students from community colleges and other higher education institutions. Transfer students are vital members of our community and help to enrich the Woodbury experience. Transfer applicants are high school graduates who have completed a minimum of 24 transferable units at the time of application. More information on course articulation is coming soon!
